4. TEACHING AND LEARNING METHODOLOGY

Euncet Business School-UPC's learning process brings together a combination of methodologies which, in a practical and innovative way, allow students to acquire skills specific to the professional exit profile that is expected in a master's degree and the digital context:

LEARNING BY PROJECTS

Working in groups to develop and present tasks and projects, by responding to different situations or challenges posed during classes.

CASE STUDIES

Solving hypothetical business issues to experiment with using a practical application of the theoretical content of the different subjects.

INTERACTIVE CLASSES

The teaching sessions will take place based on continuous interaction between the students and the lecturers, who will teach with the objective of comparing the relevant concepts through the means of analysis and open debate, with the help of real-world case studies and simulations.

ONLINE TUTORIALS

Personalised online sessions will be programmed to solve doubts and lend support to the different assignments and exercises posed during the course.

5. ASSESSMENT

According to the Bologna Process, the model rewards the student's constant and continued effort. 60 % of the mark is obtained through continuous assessment of the managed activities, and the remaining 40 % from the final exam, which is held in a single sitting.

The subject's final mark (FM) will be calculated according to the following formula:

- $FM = \text{Final Exam Mark} * 40 \% + \text{Continuous Assessment Mark} * 60 \%$
- The minimum mark of the final exam for the calculation of the FM will be 40 points over 100.
- The subject will be successfully passed with a FM equal to or higher than 50 points over 100.
